EDUCATION

VIT Bhopal University

Integrated MTech in AI

India

Sep. 2021 – Sep. 2026

New Era Public School

Secondary and Senior Secondary

New Delhi, India

July 2021

EXPERIENCE

AI Lead

Flogy.app

September 2025 – Present

Startup

- Developed a multi modal architecture for speech pattern and anomaly detection
- Stitched together a custom LLM with focus on helping individuals attain better communication skills
- Lead developer for the startup

The Globalizers

Technical intern

July 2025 – Nov 2025

Indore, India

- Responsible for the development of iOS and Android applications for the business
- Created machine learning algorithms to ensure maximum learning rate in students by implementing a personalized flashcard learning algorithms

Tech intern

Flink

January 2024 – March 2024

Remote

- Responsible for pipeline management
- Developed and maintained major portions of internal technical tools in Java, C++ and Python to fit use cases and manage data pipelines for the company's web service
- Developed a full-stack multi-platform micro web applications to assist and automate tasks for other departments like Accounts and HR

PROJECTS

Attack-ML | *Python, Machine Learning, Jupyter*

April 2024

- Developed pre-processing module for the ML pipeline
- Experimented with various data analysis techniques on real time network traffic data
- Implemented encoding techniques like OHE improved the model's performance by 78% on the raw network packet data

Power Transformer Reliability | *Python, Research Work, SQL*

Feb 2024

- Applied Exploratory Data Analysis on the dataset to explore anomalies, outliers and get overall sense of the data
- Created visualizations dashboard highlighting key features of the dataset
- Made API endpoints for using the model with a WebApp

Hostel Attendance Management System | *Java, Springboot*

Aug 2023

- Developed a java springboot application for hostel attendance management
- Integrated hostel database and turnstile APIs to automatically monitor student movements
- Provided a dashboard for easy attendance list generation

RESEARCH PUBLICATIONS

Enhancing Power Transformer Reliability with Machine Learning-Based Fault Detection and Data Analysis

- Published in Springer conference Communications in Computer and Information Sciences vol. 2125. Linked [here](#)

Building Resilient AI-enabled Detection Systems for .NET Threats: Insights from the DoubleZero Wiper

- Published in a SCOPUS indexed journal, Nanotechnology Perceptions Vol.20,S16 ISSN: 1660-6795. Linked [here](#)

Secure Federated Learning for Collaborative Intrusion Detection Systems (IDS)

- Published in a SCOPUS indexed journal, Nanotechnology Perceptions Vol.20,S16 ISSN: 1660-6795. Linked [here](#)

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, Typescript, R, SQL, Rust

Frameworks: React, Node.js, Express.js, Django, Expo, Spring, FastAPI

Developer Tools: Git, Docker, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, Powershell, Bash, Firebase

Libraries: Pandas, NumPy, Matplotlib, Tensorflow, Scikit-Learn, PyTorch, Keras, XGBoost, OpenNN, NLTK, spaCy

CERTIFICATIONS

IBM Machine Learning Professional Certification - coursera

IBM Data Science Professional Certification - coursera

IBM RAG and Agentic AI Professional Certification - coursera

LEADERSHIP / EXTRACURRICULAR

Codecademy Club

December 2021 – April 2023

Technical Lead

VIT Bhopal

- Led a team of 55 volunteers to grow the VIT Bhopal University chapter of Codecademy into India's largest and Asia's 3rd largest community.
- Collaborated with Codecademy staff to host bootcamps, workshops and seminars
- Invited guest speakers from industry and academia to share their expertise with the community.

APOLLO: UI/UX Design Club

October 2023 – May 2024

Vice-President

VIT Bhopal

- Co-founded the club with batchmates for aspiring developers and designers.
- Organized seminars and workshops led by industry professionals provide students with real-world insights and best practices.
- Mentored and supported aspiring UI/UX designers, providing guidance and feedback on their projects and career development.

Data Science Club VIT Bhopal

May 2023 – May 2024

Team Lead

VIT Bhopal

- Led a small team on various data science projects undertaken by the club
- Organized various social events to foster interest in Data Science on the college campus
- Collaborated with industry experts to give seminars and workshops
